Meeting of minds

HR Initiative

We are delighted to announce that GTL Infrastructure hosted an Open House session on 23 November 2016 at Mahape.

The Management appraised the employees on the current business in GTL Infrastructure and the way forward.

Training @ Mahape:

You will be delighted to know that we have conducted training in GTL Infrastructure on Soft skills.

The aim is to ensure that employees are equipped with requisite skills to do their jobs more effectively and also manage career aspirations. Training Department has initiated this Program at Branch level.

We had our first batch of participants on 24 & 25 November 2016 at ES2 in Mahape.

The program is titled "Etiquettes, Grooming and Effective Communication".

Telecom News:

Telecom sector to create 11-12 million jobs over the next five years, says TSSC

According to the Telecom Sector Skill Council (TSSC), the ongoing government initiatives such as Digital India, Make in India and Smart Cities are expected to help the telecom sector create about 11-12 million job opportunities over the next five years.

These opportunities will primarily be created in the services segment.

Further, the sector's non-manufacturing and manufacturing segments are likely to generate about 7 million and 5 million work opportunities respectively. TSSC is of the view that the impact of technologies such as Internet of Things across these government programmes is likely to give fillip to the demand for skilled workforce.

To ensure that the demand for skills is adequately matched with the supply, TSSC is planning various initiatives to train the workforce. The council has already trained about 70,000 individuals during 2016-17 (as of October 2016) and the number is expected to reach over 125,000 by March 2017.
