Tele News

Policy formulators are cognisant of the challenge of skilling the workforce and have, therefore, launched the National Policy on Skill Development and Entrepreneurship, 2015. The objective of this initiative is to provide an umbrella framework for all skilling activities being carried out across the country to align them with common standards and link skilling with demand centres.

Initiatives such as these, as well as the industry's future growth prospects, can make telecom among the foremost sectors in generating gainful employment over the next few years
